PRESS RELEASE – 6/6/17

Kimberly-Clark's RightCycle Program Receives NRRA's Recycling Innovation Award

EPSOM, NH – The Northeast Resource Recovery Association (NRRA), New Hampshire the Beautiful and NRRA's School Recycling CLUB presented Kimberly-Clark representative Kate Stanley and VWR Account Manager Kalomira Kalaitzis, with the Recycling Innovation Award at the 8th Annual School Recycling Conference on May 23, 2017 at the Radisson Hotel in Manchester, NH.

The RightCycle program received this award based on the assistance and support they gave to The CLUB in setting up a glove recycling program. Their Nitrile gloves can be recycled into eco-responsible consumer goods such as flower pots, patio furniture and shelving. RightCycle is an excellent example of sustainable manufacturing and Extended Producer Responsibility.

"We applaud Kimberly-Clark for finding a way to recycle the Nitrile gloves used in so many laboratories, and now in our own school outreach programs," said Michael Durfor, NRRA Executive Director.

Nine awards in total were given out. For nomination details on each recipient, visit The School Recycling CLUB website www.schoolrecycling.net or Facebook page <https://www.facebook.com/school.recycling>
